

Date: April 15, 2021

During our Aniak Traditional Council Meeting, the Tribal Council Members have agreed to follow YKHC's Guidance for the Village of Aniak.

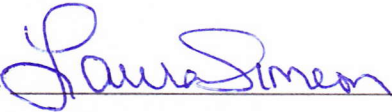

YKHC Guidance:

*If you had 2 Vaccine doses and it has been at least two weeks since the last dose; do not need to Quarantine. Still recommending getting tested at arrival and 5-7 days post trip. If a person was in Contact of a Positive COVID; YKHC is recommending to Quarantine still, unless you are an essential worker then you get tested at day 5 and 6 if negative, then you can come back to work. If a patient did not travel, but a household member did, and had their vaccine, they would not need to Quarantine but should get tested at day 5.*

We recommend YKHC's Guidance to everyone who is traveling into Aniak. But if they are fully Vaccinated, they do not need to Quarantine. Even if they encountered someone who was Positive for COVID-19, they do not need to Quarantine per CDC Mandates. CDC also lifted for those who are traveling and are fully vaccinated, do not need to test unless it is required for their work.

We are to still wear masks in public/public gatherings and follow other Organizations where it is required to use a mask before entering the building.

If we make any changes, we will update during our next Aniak Traditional Council Meeting and to the Public of Aniak.
